PREFATORY NOTE

BIOGRAPHY INDEX is a guide to biographical material appearing in periodicals indexed in other Wilson Company indexes, selected additional periodicals, current books of individual and collective biography, and incidental biographical material in otherwise non-biographical books. The Index is comprehensive in scope and is intended to serve general and scholarly reference needs. Biographical material indexed includes obituaries, collections of letters, diaries, memoirs, juvenile literature, book reviews, and bibliographies. All biographees are American unless otherwise indicated.

The main section of the Index consists of entries arranged alphabetically by the last name of the biographee. This is followed by the Index to Professions and Occupations. It provides access to biographees by profession, occupation, trade, industry, or vocation. A Checklist of Composite Books Analyzed precedes the main section. Further information about the content of citations is given in the Sample Entries.
